

With the demand for skilled workers greater than ever, we will help bridge the gap by offering **EDUCATION, EXPOSURE & ACCESS** to young women through a high-impact **3-day program** **this September at the Airshow!**

This year's reimagined Airshow plan will be more 'missionized' than ever before, offering a show-within-a-show, as we produce an aviation & aerospace enrichment experience that fully incorporates **DIVERSITY, INCLUSION AND BELONGING**. This 3-day event, **specifically designed by women for young women**, will promote the possibilities in aviation, aerospace, and STEM via a list of "social media-worthy" speakers and behind the scenes tours that the public will not get to experience. We hope these one-of-a-kind experiences will inspire young women to explore careers in aviation, aerospace, and STEM as they consider college, vocational training, and career choices.

# Missionizing the Airshow

**Friday, September 24<sup>th</sup>**  
**11:00am-2:00pm**

**Saturday & Sunday,**  
**September 25<sup>th</sup> -26<sup>th</sup>**  
**9:00am-5:00pm**

# Inspiring the next generation

Invited Speakers and Mentors will represent North America's top aviation & aerospace fields.

**Essential Women.**

**Diverse Women.**

**Bold Women.**

The program will kick-off at Mather Airport on **Friday, September 24**, beginning with an **'Ask Me Anything' Conference & Mentor Luncheon** for 200 young women featuring remarkable speakers and newsworthy role models from North America's top aviation and aerospace fields.

All participating students will receive family passes to enjoy the show on **Saturday & Sunday** to participate in **scheduled tours with unforgettable women mentors** for a look behind the curtain at their remarkable careers and the paths they took to get there. There will be three (3) one hour meet & greet opportunities with tours available each day.

Mentors, role models, local youth clubs, and academic institutions will be on-site throughout the weekend with ideas to help these young women understand **'what's next'** and how they can continue their interest in aviation, aerospace & STEM education, including information on how to join and pursue fun and STEM-related activities long after the air show gates close. In addition, they will learn about scholarship, internship, and mentorship opportunities.

# Airshows can change the world

These aerial events are **candy to the eyes of young people** and are bursting at the seams with role models who have the ability to launch dreams into careers.

**Thank YOU** for joining us in this important mission to unleash the potential of young women and cultivate their aspirations. Together, we can play a role by producing an awe-inspiring, once-in-a-lifetime **FREE** experience focused on developing a younger, more diverse and capable workforce. This project could benefit our region (and beyond) for years to come.
