

**ALEXANDER HONG - SACRAMENTO**

As a future Environmental Scientist, he hopes to help develop solutions for California's severe wildfires. He currently works with CalFire and the US Forestry Department to teach eighth graders forestry techniques.

**ALEXIS HEISE - EL DORADO HILLS**

This soon-to-be pilot plans to study Aeronautical Science at Embry-Riddle University. As a frequent flyer with her father, Alexis realized she wanted to be a pilot herself.

**AUSTIN LIDEN - AUBURN**

This future airline pilot is dedicated to his community and is working hard to make his dreams come true. He plans to attend Sierra College while earning his Private Pilot License and then transfer to William Jessup University to complete his degree.

**ERICA POMEROY - YUBA CITY**

During a night hike in elementary school while looking up at the stars, Erica found her passion for space. She plans to study Aerospace Engineering and assist NASA with tackling the next space mission.

**JEFFERY DEACON - FOLSOM**

This Civil Engineering major at Cal Poly San Luis Obispo, is putting his technical math skills to work not only for the City of Folsom as an intern but also while conducting traffic analysis during competitions against other universities.

**JEREMY SANTOS - ROSEVILLE**

As a San Diego State University student studying Aerospace Engineering, Jeremy not only studies hard but seeks out multiple hands-on experiences to build his resume including overhauling aircraft instruments.

**JORAZEM MANGLINONG - ROSEVILLE**

His love for computers at a young age shaped his passion, but his participation in advanced placement classes and competitions led him to want to study Electrical Engineering at Cal Poly San Luis Obispo.

# 2025 Scholarship Recipients

---

## **MAXSIMO GEE - ROSEVILLE**

Becoming a pilot has been his lifelong dream, born with health issues, he had to work really hard to acquire his FAA medical. As an Arizona State University student, he continues to work towards his pilot's license and plans to work for CalFire.

## **OLIVER BARNES - BENICIA**

As a future Aerospace Engineer, he hopes to help increase safety in the aviation industry. He also enjoys helping others through a variety of community service projects.

## **PETER CAREY - FAIR OAKS**

Attending the 2015 Airshow led him to find his passion in aviation and aspire to become an Aerospace Engineer. In the future, he hopes to design aircraft that will be showcased at the annual Airshow.

## **RYDER DONOVAN - YUBA CITY**

While dealing with immense family issues, he focused on his education and sports to get him through it. He plans to attend San Jose State's professional flight program in the Fall.

## **SETH KONOW - ROSEVILLE**

As an Airshow volunteer, he was inspired by the F-22 and C-17 to study Aerospace Engineering. He looks forward to working with rockets and spacecraft in the future.

## **SHIVANI GAUTAM - FOLSOM**

Participating on a robotics team in high school has led her to pursue a career in Aerospace Engineering. She is inspired by Skunk Works innovative work and is currently building an ultralight aircraft.

## **TIMOTHY MOSS - EL DORADO**

This future airline pilot plans to enroll in Sac City College's ATP pilot program. During the pandemic, he was struggling academically until his father, who is a pilot, had him take an introductory flight.
